

**Regional Technical Advisory Committee
(RTAC)**

The Regional Technical Advisory Committee is charged with development of the Unified Planning Work Program and Budget (UPWP), development of the Transportation Improvement Program (TIP), reviews of transportation related projects and plans, and constitute a primary communications link between COMPASS and its members.

The members of the Regional Technical Advisory Committee are key staff or otherwise qualified representatives of COMPASS' member agencies, preferably having a transportation-related technical background. Appointments are made by members through a written notice specifying the name(s) of the appointee(s) and any alternates as well as the duration of the appointment(s) when applicable.

Each member representing a COMPASS member government has the same weight of votes as enjoyed by that member on the COMPASS Board under the Joint Powers Agreement. Members authorized under the bylaws and not representing a COMPASS Board member are entitled to one (1) vote. When entitled to more than one vote, the member's votes may be exercised by separate persons or by one or more persons representing the member government.

Member Agency	Participants	Votes
Ada County Development Services	Megan Leatherman	3
