

Transportation Model Advisory Committee
(TMAC)

The Transportation Model Advisory Committee provides guidance on model research, applications, assumptions, updates, and public education related to the travel demand model.

Under its bylaws, members are drawn from staff or appointees of member agencies. Members shall have transportation/air quality modeling and/or land use technical experience. The bylaws state the COMPASS Board shall grant membership to four transportation/land use/air quality professionals by recommendation of the public sector members on this committee.
