An Advisory Services Program Report

ULI—the Urban Land Institute  
1025 Thomas Jefferson Street, N.W.  
Suite 500 West  
Washington, D.C. 20007-5201

# About ULI—the Urban Land Institute

---

**U**LI—the Urban Land Institute is a non-profit research and education organization that promotes responsible leadership in the use of land in order to enhance the total environment.

The Institute maintains a membership representing a broad spectrum of interests and sponsors a wide variety of educational programs and forums to encourage an open exchange of ideas and sharing of experience. ULI initiates research that anticipates emerging land use trends and issues and proposes creative solutions based on that research; provides advisory services; and publishes a wide variety of materials to disseminate information on land use and development.

Established in 1936, the Institute today has more than 25,000 members and associates from 80 countries, representing the entire spectrum of the land use and development disciplines. Professionals rep-

resented include developers, builders, property owners, investors, architects, public officials, planners, real estate brokers, appraisers, attorneys, engineers, financiers, academics, students, and librarians. ULI relies heavily on the experience of its members. It is through member involvement and information resources that ULI has been able to set standards of excellence in development practice. The Institute has long been recognized as one of America's most respected and widely quoted sources of objective information on urban planning, growth, and development.

This Advisory Services program report is intended to further the objectives of the Institute and to make authoritative information generally available to those seeking knowledge in the field of urban land use.

# About ULI Advisory Services

---

**T**he goal of ULI's Advisory Services Program is to bring the finest expertise in the real estate field to bear on complex land use planning and development projects, programs, and policies. Since 1947, this program has assembled well over 400 ULI-member teams to help sponsors find creative, practical solutions for issues such as downtown redevelopment, land management strategies, evaluation of development potential, growth management, community revitalization, brownfields redevelopment, military base reuse, provision of low-cost and affordable housing, and asset management strategies, among other matters. A wide variety of public, private, and nonprofit organizations have contracted for ULI's Advisory Services.

Each panel team is composed of highly qualified professionals who volunteer their time to ULI. They are chosen for their knowledge of the panel topic and screened to ensure their objectivity. ULI panel teams are interdisciplinary and are developed based on the specific scope of the assignment. ULI teams provide a holistic look at development problems. Each panel is chaired by a respected ULI member with previous panel experience.

The agenda for a panel assignment is intensive. It includes an in-depth briefing composed of a tour of the site and meetings with sponsor representatives; interviews of key people within the community; and a day of formulating recommendations. On the final day on site, the panel makes an oral presentation of its findings and conclusions to the sponsor. At the request of the sponsor, a written report is prepared and published.

Because the sponsoring entities are responsible for significant preparation before the panel's visit, including sending extensive briefing materials to each member and arranging for the panel to meet with key local community members and stakeholders in the project under consideration, participants in ULI's panel assignments are able to make accurate assessments of a sponsor's issues and to provide recommendations in a compressed amount of time.

A major strength of the program is ULI's unique ability to draw on the knowledge and expertise of its members, including land developers and owners, public officials, academicians, representatives of financial institutions, and others. In fulfillment of the mission of the Urban Land Institute, this Advisory Services program report is intended to provide objective advice that will promote the responsible use of land to enhance the environment.

## ULI Program Staff

Director, Book Program

Julie D. Stern/JDS Communications  
Manuscript Editor

Betsy VanBuskirk  
Art Director

Martha Loomis  
Desktop Publishing Specialist/Graphics

Diann Stanley-Austin  
Director, Publishing Operations

# Acknowledgments

---

**O**n behalf of the Urban Land Institute, the panel would like to thank Ada County and the ULI Idaho District Council for inviting it to participate in the discussion on growth in the Treasure Valley. Special thanks go to Gerry Armstrong, Carla Olson, Marie McPeak, and the entire staff of the Ada County Development Services Department. Their countless hours of planning and preparation are truly appreciated. The panel also would like to thank ULI Idaho District Council members Bob Taunton, Frank Martin, Barry Teppola, and Bill Clark—and coordinator Diane Kushlan—for their help in organizing the panel process.

Special thanks are extended to all of the community members who volunteered their time and shared their thoughts and experiences during the interview process. This group of more than 50 individuals included government officials, residents, business leaders, and property owners who provided the panel with valuable information and insights that were critical to the completion of its assignment.
