The Ada and Canyon County Development Monitoring Report provides an overview of development activity in both counties for the past three years. Similar reports have been compiled since 1980 for Ada County.

This report includes platting (for Ada County only) and building permit activity that occurred from January 1, 2000 through December 31, 2002. It also contains a general over view of development activity throughout the two county area by Demographic Areas (formally named Planning Areas) and Incorporated City Limits for both counties. Custom data analysis for more specific areas can be made available through the Community Planning Association.

Maps of the Demographic Area are available on the COMPASS website:

<http://www.compassidaho.org/maps.html>

A SPECIAL NOTE

used by Community Planning Association (COMPASS) and Demographic Areas were modified and four Demographic Areas were established for Canyon County. As a result, some of the figures for individual Demographic Areas in this edition of the Development Monitoring Report may not be an exact match with figures given in earlier editions for a Demographic Areas (formally named Planning Areas) during a given time period. Most of the boundary revisions are minor and have had little effect on the usefulness of past reports for comparative and historical purposes. This report and future reports will use these Demographic Area geographies. The 2000 through 2002 permit data were summarized at the new Demographic Area boundaries. More detailed information on the boundary revisions is available at COMPASS.

Notes:

Data reflect the 2000 Demographic Area boundaries.

Square footage data are not always reported; therefore, totals represent only those records for which square footage was given.

Data shown reflect permits issued during the year or month, not units completed.
