

Please select the description below that best describes your project for each criterion. Select only one response per criterion.

Criterion	Assessment	
System Continuity	<i>Transportation-Related Historic Preservation / Archaeological Projects</i>	
	Project is part of a local, regional or state preservation or archaeological effort	<input type="checkbox"/>
	Project positively affects the regional transportation system.	<input type="checkbox"/>
	Project does not affect the regional transportation system.	<input type="checkbox"/>
	<i>Transportation Aesthetics and Scenic Values Projects</i>	
	Project is part of the state's scenic highway program or enhances the visual environment.	<input type="checkbox"/>
	Project positively affects the regional transportation system.	<input type="checkbox"/>
	Project does not affect the regional transportation system.	<input type="checkbox"/>
	<i>Projects that Mitigate Water Pollution due to Highway Runoff</i>	
	Project implements mitigation measures for a demonstrated water quality problem.	<input type="checkbox"/>
	Project provides evidence that the proposed mitigation will improve water quality, preserve wetlands, or create new ones.	<input type="checkbox"/>
	Project positively affects the regional transportation system.	<input type="checkbox"/>
	Project does not affect the regional transportation system.	<input type="checkbox"/>
Safety Enhancement	Project will significantly improve safety for travelers or site visitors in any mode.	<input type="checkbox"/>
	Project will moderately improve safety for travelers or site visitors in any mode.	<input type="checkbox"/>
	Project will result in some improvement of safety for travelers or site visitors in any mode.	<input type="checkbox"/>
	Project will result in no identifiable safety benefits.	<input type="checkbox"/>
Timely Implementation A project schedule is required, including an operations plan if appropriate.	Project could be implemented in five years and expects no political roadblocks exist from a preliminary view.	<input type="checkbox"/>
	Project could be implemented within five years and expects some political roadblocks exist from a preliminary view.	<input type="checkbox"/>
	Project could not be implemented within five years.	<input type="checkbox"/>
Land Use "Growth areas" as defined in Communities in Motion: Community Choices.	Project is wholly within the "growth areas" in the Community Choices land use scenario; or it connects two or more "growth areas" in the Community Choices land use scenario, although it also traverses through "no growth" areas as well.	<input type="checkbox"/>
	At least 60% of the project is physically located within a "growth area" in the Community Choices land use scenario, but does not connect two or more "growth areas."	<input type="checkbox"/>
	Project is outside the "growth area" in the Community Choices land use scenario.	<input type="checkbox"/>
* Bonus Points *		

Criterion	Assessment	
Basic Requirement	In order to obtain bonus points, is there an executed Development or Partnership Agreement documenting details of additional funding and/or coordination efforts? (Please attach copy)	<input type="checkbox"/> Yes <input type="checkbox"/> No
Funding Incentives	Project sponsor will provide additional monetary or in-kind support to the project equaling over 30% of the project total.	<input type="checkbox"/>
	Project sponsor will provide additional monetary or in-kind support to the project equaling 21%-30% of the project total.	<input type="checkbox"/>
	Project sponsor will provide additional monetary or in-kind support to the project equaling 11%-20% of the project total.	<input type="checkbox"/>
	Project sponsor will provide additional monetary or in-kind support to the project above the required local match up to 10% of the project total.	<input type="checkbox"/>
	Project sponsor will provide the required program match, typically 7.34%.	<input type="checkbox"/>
Coordinated Efforts Major Classification = multi-modal project, adds capacity, or improves safety Minor Classification = utility improvements, overlays	Project is coordinated with a separate funded project resulting in a cost savings or development efficiency. The coordinating benefits are classified as "major."	<input type="checkbox"/>
	Project is coordinated with a separate funded project resulting in a cost savings or development efficiency. The coordinating benefits are classified as "minor."	<input type="checkbox"/>
	This project is not coordinated with any other funded project.	<input type="checkbox"/>
