

Working together to plan for the future

Work Group: Environmental Review Workgroup (ERWG)
Staff Liaison: Liisa Itkonen

Purpose:

The purpose of the Environmental Review Workgroup is to share data, consider environmental goals and community values early in the long-range planning process, and identify potential environmental mitigation strategies to help restore and maintain environmental functions affected by projects in the long-range transportation plan, *Communities in Motion 2050* (CIM 2050). The environmental review is aimed at creating a seamless decision-making process that minimizes duplication of effort, promotes environmental stewardship, and reduces delays in project implementation.

Tasks:

1. Share (provide access to) the most up-to-date regional data available about the environment and natural resources in Ada and Canyon Counties that could impact, or be impacted by, transportation projects
2. Advise about potential impacts to protected resources or conservation and restoration priorities associated with transportation projects in CIM 2050
3. Help identify strategies to avoid or minimize direct, indirect, and cumulative impacts of transportation projects
4. Help identify areas where partners may be able to work together to mitigate transportation impacts across multiple resources of concern
5. Participate in meetings as scheduled

Deliverables, Schedule:

1. Data updates (Ongoing)
2. Description of potential environmental impacts associated with transportation projects in CIM 2050 (April 2022)
3. Draft of strategies to avoid or minimize direct, indirect, and cumulative impacts of transportation projects, including areas for coordination among partners (May 2022)

Membership in the ERWG will be drawn from federal, state, and local environmental and resource agencies and organizations, and member agency staff with appropriate expertise.

Charter recommended by Executive Committee: July 13, 2021
